

ADVISORY NOTICE: UPDATE RE CEREUS POKER NETWORK

May 17, 2010

Since May 6, 2010 when it first became aware of a security issue concerning the CEREUS poker network, the Commission has been closely monitoring efforts to remedy the issue. Based on information provided to it by the operators of the CEREUS poker network and obtained from third party sources, the Commission understands that significant steps have been taken to remedy the security issue.

The Commission is in discussions with an independent, third-party agency to conduct vulnerability testing on the CEREUS poker network. A further update will be posted upon completion of these tests.

For further information, please contact the Kahnawake Gaming Commission at info@gamingcommission.ca.
